Yield and Revenue Insurance

One policy provides the choice of three plans:

Yield Protection: Insurance coverage only providing protection against a production loss.

Revenue Protection: Insurance coverage providing protection against loss of revenue due to a production loss, price decline or increase or a combination of both.

Revenue Protection with Harvest Price Exclusion: Insurance coverage providing protection only against loss of revenue due to a production loss, price decline or a combination of both.

Projected and Harvest Price

Commodity Exchange Price Provisions (CEPP)
Contains information necessary to derive the **projected price** and the **harvest price** for the insured crop as applicable. Information includes the price discovery period, release dates, board of trade's utilized, and

additional pricing information. Available at agent offices and the RMA Web site: <http://www.rma.usda.gov>. The **Projected Price** is used to calculate the premium, replant payment and any prevented planting payment. The **Harvest Price** will be used to value production to count under the Revenue Protection Plan and the Revenue Protection with Harvest Price Exclusion plans of insurance.

Production Guarantees

Yield Protection guarantee: determined by multiplying the production guarantee by the projected price. The harvest price is not used.

Revenue Protection guarantee: determined by multiplying the production guarantee (per acre) by the greater of the projected price or the harvest price.

Revenue Protection with Harvest Price Exclusion guarantee: determined by multiplying production guarantee (per acre) by the projected price.

Important Dates

Sales Closing March 15
Final Planting Date See County Actuarial
Acreage Report Date July 15
Cancellation & Termination Date March 15

Insurance Period

Insurance attaches at the time of planting and ends the earliest of: **1)** total destruction of the crop; **2)** combining, or picking corn for grain or severing the stalk from the land and chopping for the purpose of livestock feed; **3)** final adjustment of a loss; or **4)** **October 20** for corn insured as silage in all Idaho, Oregon and Washington counties; **October 31** for corn insured as grain in Clallam, Grays Harbor, Jefferson, King, Kitsap, Pierce, Snohomish, Thurston counties, Washington; **December 10** for corn insured as grain in all other Idaho, Oregon and Washington counties.

Causes of Loss

Insured perils include: adverse weather conditions, fire, insects (but not damage due to insufficient or improper application of pest control measures), plant disease (but not damage allowed because of insufficient or improper application of disease control measures), wildlife, earthquake, volcanic eruption failure of the irrigation water supply due to an insured cause of loss, or when revenue protection is in effect, a decline in the harvest price below the projected price.

Guarantee Choices and Premium Subsidy

Choice of **50 to 80/85 percent** of the approved average yield (5-percent increments).

Item	Percent							
Coverage Level	50	55	60	65	70	75	80	85
Premium	67	64	64	59	59	55	48	38
Insured	33	36	36	41	41	45	52	62

For example, at 75 percent coverage level, the farmer paid premium would be 45 percent of the total premium. Catastrophic (CAT) coverage is fixed at 50 percent of the average yield and 55 percent of the projected price.

Reporting Requirements

Acreage Report: You must report to your insurance company all acreage of the insured crop in the county in which you have a share, the type and practice, and your share at the time of planting.

Additional Coverages and Options

Policy provisions offer additional coverage options:

Insurance Units

Late and Prevented Planting

Replant Payments

Please consult your crop insurance agent for details.

Administrative Fees

Catastrophic (CAT) Coverage: \$300 per crop per county. **Additional Coverage:** \$30 per crop per county. Waivers of administrative fees for **all** coverage levels (CAT and additional) are available for limited resource farmers.
